

WHY CHOOSE BOSTONSIGHT SCLERAL?

With decades of experience, BostonSight has restored vision to thousands of patients around the world, dramatically improving their quality of life. From Dry Eye Disease to Keratoconus, BostonSight SCLERAL is the leading scleral lens source and trusted partner for optometrists across the country.

BostonSight is the **#1 leader** in Scleral lens research and education.

We are the **number one contributor to scleral lens education, with the most peer-reviewed publications** in the US, and number two worldwide¹.

¹ Povedano-Montero, et.al. (2018) Bibliometric Study of Scientific Research on Scleral Lenses. *Eye and Cont. Lens*; 44: S285-S291

BostonSight is the **only scleral lens provider to offer an evidence-based lens design.**

We offer the **first and only lens** designed using patient fitting data and clinical experience.

Because our lens is data-backed, it is uniquely designed to fit properly and provide full coverage of the ocular surface to maximize ocular health and provide the best comfort and vision.

You can expect unparalleled, comprehensive support and superior value from BostonSight.

We offer an always-available level of customer service, ensuring your practice is successful and your patients experience a smarter fit.

BostonSight lenses never have any additional costs, making them the **most competitively priced lenses on the market.**

**DESIGNED BY DATA.
DESIGNED TO FIT.
DESIGNED FOR LIFE.**

BostonSight is a world-renowned leader in the treatment of patients with complex corneal disease and a pioneer in scleral lens design and technology. Founded in 1992 as a nonprofit eye healthcare organization, we launched BostonSight SCLERAL in 2017—a new, scalable solution to achieve optimal vision, comfort, and long-term ocular health.
