

Essentials of Eye Care Programme Management

Course overview:

This course will enable the participants to understand the scope of eye care programmes, plan and manage the finances for the projected requirements/grant budgets, customize eye care services to a specific target population and monitor the referral pathway. The participants will learn to develop a management information system to view, analyse and control the information in a technology enabled monitoring and evaluation programme. An efficient and effective way of programme management will be the essential outcome of the course.

Course outline:

The two weeks course is broadly divided into three modules covering the key aspects of management of eye care programmes.

Module 1: Envisioning and setting up a programme

Module 2: Managing a programme

Module 3: Monitoring and Evaluation of a programme

Entry requirements:

All eye health personnel involved in eye care project/programme management, planning, monitoring and evaluation of eye health services.
