

**LV Prasad Eye Institute**

# UVEITIS AND MEDICAL RETINA FELLOWSHIP

**Eligibility:** Post-graduation in ophthalmology

**Duration:** Three years

**Number of fellowships on offer:** Four fellowships per year  
(national/international)

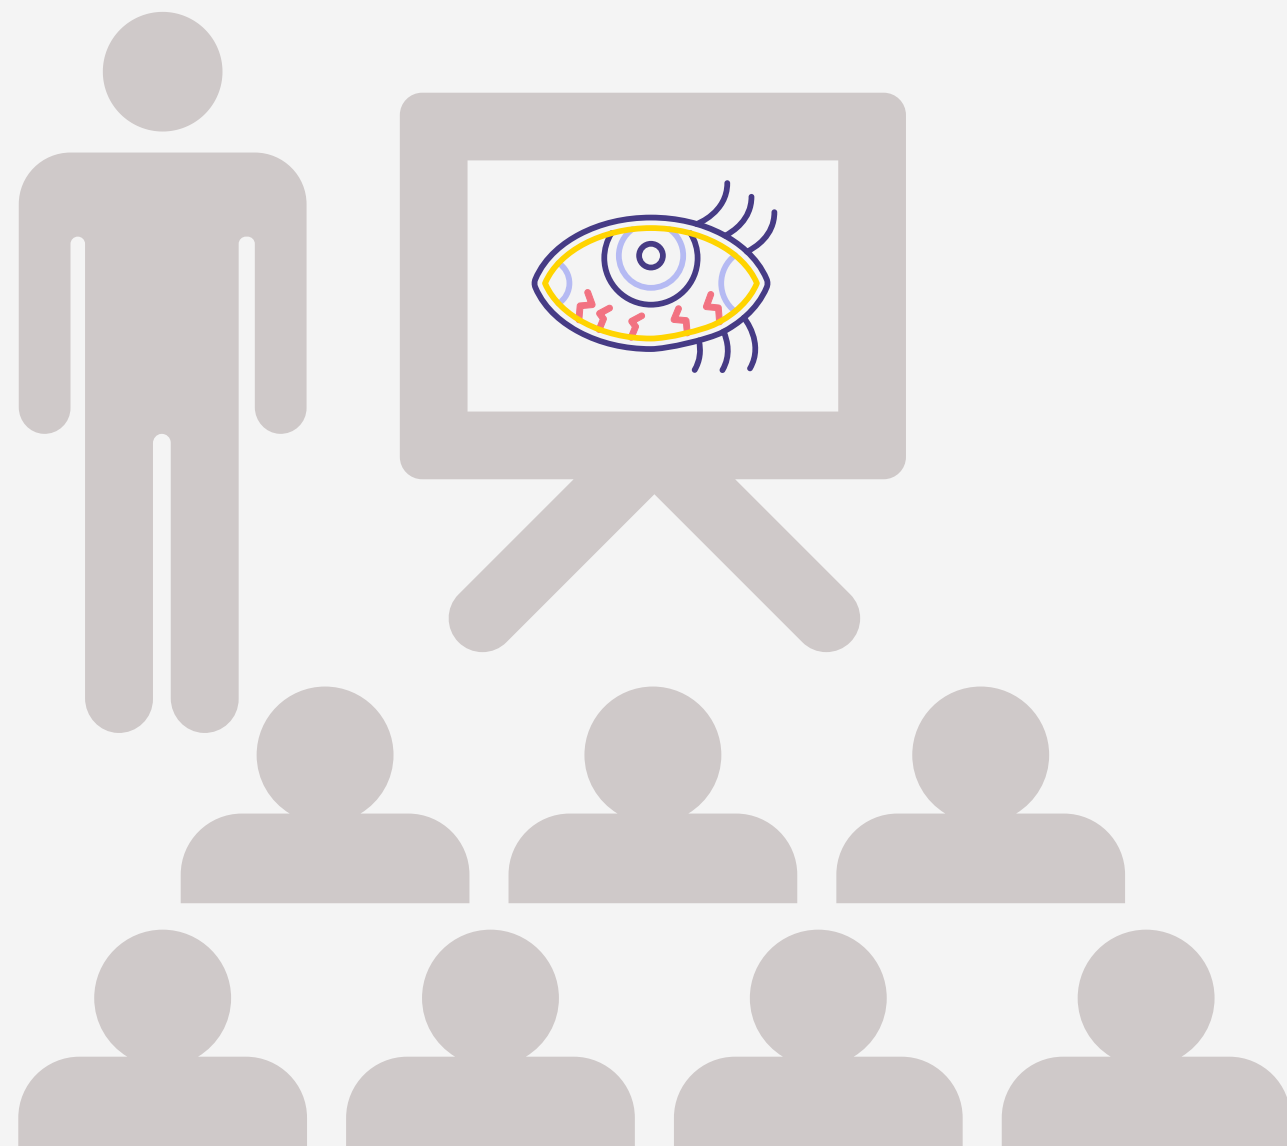

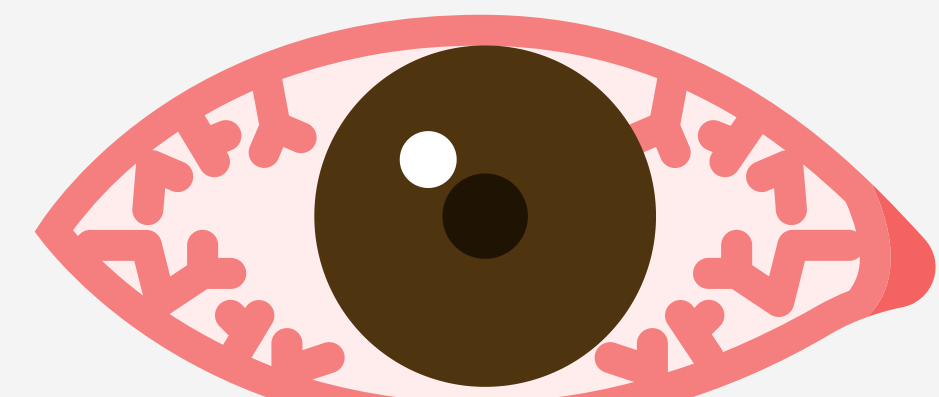

**Application process:** Written evaluation and interviews  
conducted in May and November, each year

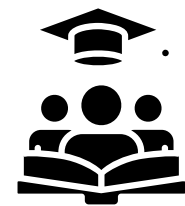

## The fellowship will train you to develop:

- ✔ Comprehensive expertise in the diagnosis and management of uveitis, including complex cataract surgeries, immuno-suppressive therapy, and basic rheumatological evaluation of patients
- ✔ Proficiency in the diagnosis and management of common medical retinal conditions, including interpretation of retinal imaging tools and competency in retinal lasers and injections

# Timeline of Fellowship

## Month 0-9

- Comprehensive training in all sub-specialities
- Competency in routine cataract surgery
- Introduction to uveitis

## Month 10-21

- Comprehensive practice in secondary centres including in high-volume cataract surgeries
- participation in all academic sessions on uveitis and medical retina

## Month 22-30

- Intensive sub-specialty training on uveitis and medical retina
- Management of complex (uveitic) cataract surgeries
- Retinal lasers and injections

## Month 31-36

- Independent outpatient clinics
- Rheumatology rotation (weekly, 3 months)
- Rotation in other LVPEI campuses
